SAILBOARDSTARIFA IS A COMPANY WHICH WAS FORMED IN 1996 WITH THREE CLEAR OBJECTIVES:

- TO ACHIEVE THE ULTIMATE, MOST ADVANCED WINDSURF BOARD DESIGNS ON THE MARKET.
- TO DEVELOP CONSTRUCTION TECHNIQUES TO ATTAIN THE PERFECT BALANCE BETWEEN WEIGHT AND DURABILITY.
- TO PROVIDE OPTIMUM SERVICE AND CUSTOMER CARE.

# CONSTRUCTION OPTIONS - PROLINE & EXPERT

## PRO LINE CUSTOM WINDSURF BOARD

- Full Sandwich. Density 90 (6 mm bottom - 3,5 mm top).
- T - Stringers.
- Unidirectional carbon reinforcements.

For Twins, Quads and Tri fins boards you need to add between 60 € (Twin) & 150 € (Quad).  
Graphics are not included in the price.

# ROCKER LINES

## TOTALWAVE - TARIFAWAVE - SIDESHORE

**TOTALWAVE.** OUR TOTALWAVE CONCEPT IS OUR DO-IT-ALL WAVEBOARD. WITH A MORE MODERATE SCOOP ROCKER THAN THAT OF OUR SIDESHORE, IT MANAGES TO COMBINE FAST, RADICAL TURNS WITH A HIGH TOP-END SPEED, ENABLING YOU TO KEEP ON THE PLANE AT ALL TIMES. IDEAL FOR SIDE TO SIDE-ON CONDITIONS WITH PRECISE CONTROL IN THE SURF THROUGH THE FRONT FOOT, THIS BOARD WORKS IN ALL CONDITIONS FOR EVERY TYPE OF RIDER. AN ESSENTIAL CLASSIC.

**TARIFAWAVE.** OUR TARIFAWAVE IS OUR WAVE DESIGN IDEAL FOR SAILING IN SPOTS WITH SUPER-RADICAL CONDITIONS- STRONG WIND, CHOP AND WAVES. IT WORKS AS WELL IN ONSHORE AS IT DOES IN SIDE-ON AND SIDESHORE CONDITIONS. ITS SCOOP ROCKERLINE HAS BEEN METICULOUSLY DESIGNED TO PROVIDE MAXIMUM VELOCITY AND CONTROL IN EXTREME CONDITIONS, PLANNING INCREDIBLY QUICKLY AND HELPING TO DEAL WITH THE STRONGEST GUSTS, ALL OF THIS COMBINED WITH THE AGGRESSIVE, RADICAL TURNING CAPABILITY OF A WAVEBOARD TO ALLOW EFFORTLESS, RADICAL SURFING. A VERSATILE DESIGN FOR RIDING, JUMPING AND ALLROUND SAILING.

**SIDESHORE.** OUR MOST RADICAL BOARD. A NO-COMPROMISE DESIGN WITH A PRONOUNCED SCOOP ROCKERLINE FOR SIDESHORE DOWN-THE-LINE RIDING, THIS BOARD FAVOURS ABOVE ALL TURNS ON THE WAVE FACE, ALLOWING AGGRESSIVE SURFING WITH SMOOTH LINES MAINTAINING CONTROL AT ALL TIMES ON THE WAVE. THE BOARD IS DRIVEN THROUGH THE BACK FOOT, GIVING IT AN AUTHENTIC SURFBOARD FEEL WHILE WINDSURFING. A NOHOLDS BARRED DESIGN IDEAL FOR SPOTS SUCH AS MORROCCO, FUERTEVENTURA, GUINCHO OR HOOKIPA.

# FREEWAVE Windsurf Boards

**FREEWAVE.** WITHOUT DOUBT ONE OF OUR PERSONAL FAVOURITES, THE FREEWAVE IS OUR DESIGN WHICH BRINGS TOGETHER A GREAT VARIETY OF CHARACTERISTICS IN ONE DESIGN. ENJOYING A MORE POTENT, MULTI-PURPOSE ROCKERLINE THAN ITS PURE WAVE COUSINS, OUR FREEWAVE DISTINGUISHES ITSELF WITH INCREDIBLY EARLY PLANING AND A VERY HIGH TOP SPEED, MAKING IT A WELL-BEHAVED BOARD IN ONSHORE CONDITIONS, AS WELL AS A VERY CAPABLE RIDING MACHINE WITH A LIVELY, RESPONSIVE FEEL. WITH OUR V12.0 VERSION, WE HAVE DEVELOPED A MORE ROUNDED, COMPACT DESIGN WHICH HAS MUCH GREATER STABILITY BOTH ON AND OFF THE PLANE, IDEAL FOR GETTING OUT THROUGH THAT DREADED SHORE-BREAK, AS WELL AS INCREASING CONTROL IN STRONG WINDS. WITHOUT A SHADOW OF DOUBT OUR MOST ROUNDED, VERSATILE DESIGN.

# FREESTYLE Windsurf Boards

## FREESTYLE

OUR NEW FREESTYLE DESIGN IS NOT A BOARD FOR EVERYONE. YOU ARE LOOKING AT A HIGH PERFORMANCE COMPETITION BOARD SUITABLE ONLY FOR THOSE WHO WANT TO PULL OFF THE MOST ADVANCED, TECHNICAL FREESTYLE MANOEUVRES. WE HAVE INCORPORATED NUMEROUS CHARACTERISTICS CRITICAL IN A PURE FREESTYLE MACHINE LIKE EXPLOSIVE ACCELERATION, THE CAPACITY OF SUDDEN CHANGES OF DIRECTION TO FACILITATE THE NEW, RADICAL MANOEUVRES, AND TONS OF POP. WE HAVE SUBTLY SHIFTED THE VOLUME DISTRIBUTION FURTHER AFT AND THIS, COMBINED WITH ITS SHORT, COMPACT OUTLINE, HAS MOVED THE CENTRE OF GRAVITY TOWARDS THE TAIL, IMPROVING ITS BEHAVIOUR DURING MANOEUVRES. AND LASTLY, THANKS TO OUR LATEST CONSTRUCTION TECHNIQUES, IT IS INCREDIBLY LIGHT.

# FREERIDE Windsurf Boards

## FREERIDE

DERIVED FROM OUR HUGE SUCCESSFUL SLALOM RANGE, THE FREERIDE IS NOT MERELY A RECREATIONAL BOARD FOR THE MASSES, WE ALSO WANTED TO MAKE IT A HIGH PERFORMANCE BOARD BUT IMPROVE ITS BEHAVIOUR IN TERMS OF RIDING COMFORT AND TURNING, AREAS WHERE PURE SLALOM BOARDS OFTEN COME IN FOR HEAVY CRITICISM. WITH ITS NEW, SHARPER OUTLINE, REDESIGNED RAILS, MORE INBOARD STRAP POSITIONS AND AN OPTIMIZED ROCKER LINE, THE FREERIDE MANAGES TO MAINTAIN ITS HIGH PERFORMANCE CHARACTERISTICS IN EARLY PLANNING, LIGHTNING FAST TOP END SPEED AND CONTROL WHILE BEING COMFORTABLE AND FUN TO RIDE. LIKewise, DEPENDING ON THE CONSTRUCTION YOU CHOOSE FOR YOUR FREERIDE BOARD IT IS ACTUALLY POSSIBLE FOR US TO ACHIEVE THE ULTRALIGHT WEIGHT OF A PRO SLALOM BOARD, THEREBY FURTHER ENHANCING ITS HIGH PERFORMANCE CHARACTERISTICS.
